PROVIDING FOR CONSIDERATION OF H.R. 889, COAST GUARD AND MARITIME TRANSPORTATION ACT OF 2005

SPEECH OF

HON. TIMOTHY H. BISHOP

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 15, 2005

Mr. BISHOP of New York. Mr. Chairman, I rise in support of the amendment offered by the gentleman from Massachusetts (Mr. MARKEY) requiring the U.S. Coast Guard to conduct a comprehensive risk assessment of waterfront facilities transferring liquefied gas, LNG, and proposed shipping routes for LNG tankers. I appreciate Mr. MARKEY's leadership and advocacy for the safety and welfare of Americans potentially affected by "siting" or expanding floating and shore-based LNG terminals.

Importantly, the Markey amendment does not refute the need for more LNG terminals or a greater supply of natural gas. Rather, the amendment simply requires an assessment of whether terminals are safely located and sufficiently remote from city centers and highly populated areas. It also directs terminal owners and operators how to best mitigate risks.

The Coast Guard is a firm pillar of our homeland security and national security defenses. It is therefore uniquely prepared to assess the risk of siting LNG terminals upon our Nation's waterways and shorelines. Well-versed in the safety and security needs of our local ports and harbors, we must build upon the Coast Guard's success as the trusted steward of our shores.

Accordingly, Mr. Chairman, the Markey amendment gives the Coast Guard the right to challenge the safety of an LNG proposal during the siting or expansion process. To that end, I strongly encourage my colleagues to vote for the Markey amendment in order to give the Coast Guard the last word in terminal siting and thereby maximize Federal preparedness against possible accidents or terrorist attacks upon LNG terminals.
